

Automotive Requirements for Motor Body Repairers (MBR'S) & List of Approved Repairers

March 2022

1. Introduction

The Competition Commission on 29 January 2021 published the Guidelines for competition in the Automotive Aftermarket. These Guidelines became effective from 01 July 2021 and allow vehicle owners freedom to choose which service providers to maintain and repair their vehicles. This is to ensure entry and participation in the aftersales value chain by small and medium enterprises and firms owned by historically disadvantaged individuals.

The Guidelines require insurers to publish the criteria required for Motor Body Repairer's ("MBR's") to be on their panels and to make available to the public, their panel of MBR's to allow its customers freedom to choose which service provider they want to use.

This document provides for Centriq's minimum standards and criteria for appointment to our panel and contains a list of our MBR's.

2. Standards and Criteria

The following is the minimum requirements required to become a MBR at Centriq: -

A. Corporate Governance (supporting documentation) requirements

- VDQ certificate per estimator
- Business License/Trading permit
- Business current Registration Certificate (also see note below)
- Tax clearance certificate (not expired) – good standing
- BBBEE certificate or sworn BBBEE affidavit (not expired)
- Proof of insurance (fire, theft and public liability)
- Letter from the bank (dated not older than 3 months) to confirm business bank details
- Consent letter permit/Zoning certificate
- Active Abuntex/Audatex user, latest Audatex statement to be provided
- Valid OEM approval certificates (if applicable on your business)
- Acceptance of Centriq contract with all required terms and conditions.

B. Workshop or Paint Shop requirements

- Site evaluation to be passed
- Business premises to conform to local government by-laws and occupations health and safety

- Business signage indicating business name, contact details and business hours
- All repair and paint areas to be under roof
- Spray booth or spray rooms with extraction and filtration system
- Clearly visible indemnity signage
- To have minimum tools and equipment required to carry out repair work

C. Reception and Facilities requirements

- Customer reception area must be separate from workshop or repair area
- There must be a dedicated client toilet facility
- There must be secure parking and storage facilities during business and after hours
- Valid or non-expired fire-fighting equipment that is in working order
- Valid OHS working conditions with all required certificates and equipment, including PPE for all staff and customers
- Appropriate repair equipment for MBR job grading
- Digital assessment capabilities i.e., taking pictures
- Standard vehicle check-in and check-out checklist

D. Staffing requirements

- All employees to be registered with the Motor Industry Bargaining Council (“MIBCO”)
- Latest MIBCO forecast which indicates employees job title example: XK – Spray painters, to XA-Automotive Body Repairer, be provided
- At least 1 qualified spray painter and 1 qualified automotive body repairer / panel beater.
